Siberian Spruce

Configure your sauna ■

Create a sustainable one-of-a-kind sauna that fits your lifestyle and space.

- Adjust the interior to your needs with custom finishings, equipments, add-ons, and other exterior decorative elements.
- Plan the size of your sauna with modular elements that match your needs.
- All BEWA's saunas come with 25 years concrete structure guarantee.

- The sauna's interior is trimmed with 2cm wooden plank.
- Choose from a variety of wood finishings such as Cedar, Caucasian Fir, Siberian Spruce and more.
- You can also add an easily accessible digital control panel that tracks temperature, humidity, and other elements in the sauna.

Sauna Helsinki ■

This horizontal barrel-shaped sauna is crafted from sustainable architectural concrete, which is complemented by wooden and glass elements.

The sauna has a high-quality thermal insulation and ultra-modern design that evenly regulates the heat flow in the room. This creates a relaxing atmosphere to slowly melt your stress away.

Technical data

Sample* Sauna Dimensions

Diameter (outside)	290 cm
Diameter (inside)	250 cm
Total length from	309 cm

*The length of the sauna can be extended depending on modular specifications.

Sauna Lund ■

This cuboid-shaped garden sauna is also made from high-quality sustainable architectural concrete and features a large panoramic glazed window on the front wall. The width of the sauna is fully modular and can be expanded accordingly to your needs. This modern sauna style is crafted to give you the best view from any seat in the room while you relax

Technical data

Sample* Sauna Dimensions

Length (Outside)	690 cm
Width (Outside)	310 cm
Height (Outside)	335 cm

*The length of the sauna can be extended depending on modular specifications.

Sauna Bergen ■

This is the sauna you need when you want to slow down and commune with nature.

Crafted with sustainable concrete and well-insulated glazed windows, this cuboid-shaped sauna has a simple, modern design that is spacious with a bright interior. Sauna Bergen can also be configured to different shapes (L-shape, U-shape, etc.) depending on the space and your requirements. The large windows not only conserve and regulate the flow of heat in the sauna, they also give you an amazing view of the surroundings.

Technical data

Length (Outside)	560 cm
Width (Outside)	280 cm
Height (Outside)	260 cm

*The length of the sauna can be extended depending on modular specifications.

Modular Swimming Pool Basins

Your Personal Oasis ■

Constructing swimming pools with prefabricated pool basins makes the process faster and easier for clients. Since each piece is produced in a specialised factory, this means the individual pool can be easily assembled, quickly installed, lasts longer and customised for any space.

This prefabricated technology is steadily becoming popular around the world as a modern and efficient solution to backyard bliss.

Extended Swimming Pool Basin ■

More space means more room for more swimming pool; so turn every extra centimetre into your personal oasis! Take your pool to the next level by adding more units to your space. With BEWA's prefabricated modular swimming pools, you can easily modify or create a pool that suits your home.

Technical data

Sample* Swimming Pool Basin Dimensions

Length (Outside)	690 cm
Width (Outside)	310 cm
Height (Outside)	175 cm

*The length of the swimming pool basin can be modified depending on modular specifications.

About BEWA ■

Established in 1993, BEWA is a Polish enterprise that started out manufacturing minor concrete elements. In 1995, the company began specialising in manufacturing devices that purify rainwater, process water, and pre-treat domestic sewage.

Over time, we gained recognition for our outstanding products and services, which led to the systematic expansion of multiple outlets and the brand's dynamic growth. Currently, BEWA is well-known across both domestic and foreign markets.

Today, BEWA's operation has expanded with products in the Home & Garden portfolio, which are targeted at diverse customers: from individuals to developers and housing communities. Whether big or small, BEWA products serve everyone and we approach each order with technical knowledge that gives our clients the right solutions they need.

For almost 30 years, BEWA
has been manufacturing
precast concrete systems
and modular elements.

Today, the BEWA portfolio
continues to grow for you.
